# Exhibit I

---

To whom it may concern,

I sit here today writing a letter that I believed at one time would be for me...

My name is Kirk Womack. I am a 42 year old disabled combat veteran, former detention officer and Then a Deputy Sheriff for Grayson County Texas. So I am intimately familiar with the way things are within our system.

Aaron lives next door and his parents live directly across the street from me. I have a metal sign that Aarons dad gave me. My family and I also attended Aaron and Amandas baby Shower for [REDACTED]. I only write this to establish that our friendship is more than simply waving across the street.

I moved to New York with my wife and 2 kids about 3 years ago. Leaving my career in the dust after so many times of inmates attempting to trap me in situations and almost falling for it. I think it unfortunate that Aaron is in this situation. I also think it unfortunate that our current world is so eager to burn a public servant and put the real criminals on the streets for the sake of what's socially acceptable instead of what is right.

Now that said, more and more people are becoming like parasites instead of productive citizens. Aaron Finn is NOT one of these people. He is constantly going. Working. Taking care of his Parents. His Wife. His newborn son [REDACTED]. His wife's family etc... when he isn't working at his business he is fixing someone else's car for them... probably for free too. People like Aaron are the small percentage that does a large percentage of keeping the world going.

So to keep this letter simple and to the point. Please allow for no jail time for Aaron Finn on the principle of him being a member of our society that is highly productive, with family values and Morals. Prison time would only create in Aaron something that isn't there yet.

For your consideration with the utmost respect,

Kirk Womack
